WORK EXPERIENCE

Software Engineer, Officer - Architecture and Innovation

12/2024 – present

PNC Financial Services

- Led development on a targeted customer acquisition platform enabling digital onboarding of 2k+ customers from competitor banks, generating \$15M in deposits.
- Developed core services for a distributed Spring Boot orchestration platform backed by MongoDB processing 1.5M+ annual account applications.
- Architected resilient vendor integration layer for 5+ external APIs, achieving 99.97% uptime.
- Developed a distributed micro-UI framework standardizing account opening experiences across 10+ line of business.
- Built Flowable BPMN proof-of-concept for retail account servicing, demonstrating dynamic case management to SVPs for critical contract negotiation.
- Redesigned care center UI used by 6,000+ employees, reducing handle time 34%.

Technology Development Program Analyst

02/2024 – 12/2024

PNC Financial Services

Software Engineering

- Upgraded Angular app from v12 to v14 with lazy loading reducing bundle size 42% and page load from 8.3s to 2.9s.

Fraud Software Engineer

- Built real-time fraud ACH service using Apache Camel and Kafka Streams processing 2,000 TPS.

Technology Operations:

- Managed 28 incidents for business deposits platform, including zero-downtime SSL renewals across 25+ servers.

Business Analytics:

- Re-engineered Python/R ETL pipelines with optimized SQL queries, reducing extraction runtime by 40%.
- Designed 5 dashboards in Tableau to enhance data accessibility and provide business insights.

Technology Help Desk Consultant

11/2022 – 01/2024

University of Pittsburgh

- Provided technical support to customers and users experiencing issues by troubleshooting hardware and software problems, answering questions about system usage, and assisted with setting up and configuring technology.

Enterprise Technology Developer Intern

05/2023 – 08/2023

PNC Financial Services

- Successfully migrated and streamlined the entire OKR metric data reporting process from Tableau to Microsoft Power Platform for a report leveraged monthly resulting in \$10,500 a year in savings.

EDUCATION
